

SUBJECT INDEX TO VOLUME 7

- A**
- Acridine-orange fluorescence microscopy in cytology, an evaluation of, 111
- Adenocarcinoma cells in serous fluids, dehydrogenase activity of, 316
- 17-Alpha-Hydroxyprogesterone Caproate, cytological findings of a woman treated with 7 g. of, 329
- An unusual protozoa found on endocervical smear, vorticella, 129
- Anaplasia (dysplasia) to carcinoma *in situ*, cytologic findings in progression of, 183
- B**
- Bertalanffy fluorochrome method, a new method for detection of cancer cells in peripheral blood using the, 62
- Bile-stained aspirates, degenerating cells in, 311
- BOOK REVIEWS**
- A manual of cytotechnology, published by National Committee for Careers in Medical Technology, Wash., D. C., 74
- An informal collection of colposcopic and cytological studies. Ed. by Robert Ganse, 74
- Atlas de cytologie Volume I: Cytologie gynécologique, by André Sicard and Colette Marsan, 74
- Atlas der kolposkopie, by Gustav Mestwerdt and Hansjakob Wespi, 73
- Atlas of *in situ* cytology, by S. Charles Kasdon and Sophia B. Bamford, 74
- Carcinoma of the cervix, by John B. Graham, *et al.*, 388
- Clinical hematology, by Maxwell M. Wintrobe, 73
- Colpocytology and other cytodiagnoses in gynecology, by Clarice do Amaral, 388
- Ocular cytology—morphological study with Papanicolaou's stain—the technic by Papanicolaou on normal and pathologic aspects, by Marcello Laurentino de Azevedo, 388
- The cervix uteri and its diseases, by C. Frederic Fluhmann, 73
-
- Bronchial washings, significance of multinucleated epithelial cells in, 258
- C**
- Cadaver blood, the presence of malignant cells in, 159
- Cancer cells, circulating in the blood, a cautionary note to those concerned with, 70
- in peripheral blood using the Bertalanffy fluorochrome method, a new method for detection of, 62
- Cancer, lung, cytodiagnosis of, report of four-year laboratory, clinical and statistical study with a review of the literature on lung cancer and pulmonary cytology, 1
- Carcinoma, bronchial, the general appearance of the bronchial epithelium in a histopathological study with some cytological viewpoints, 97
- colonic, mucosal smear cytology in the detection of, 233
- of the esophagus, an experience in the cytopathologic diagnosis of, 236
- of the kidney, cytology of, 239
- or atypical cells in sputum, concentration of, 305
- Cells from mouse cervix subjected to carcinogenic treatment, tissue culture studies of, 215
- parabasal, morphological aspects of, 54
- Clinical cytology in a pediatric institution, the role of, 207
- Cytology technics, intraoral exfoliative, 327
- D**
- Developmental sex abnormalities with an assessment of results, sex chromatin determination in selected cases of, 151
- Differentiated surface cells and dysplasia, intra-epithelial carcinoma with, 351
- Domestic animals, accessory nuclear lobule on the polymorphonuclear neutrophil leukocyte of, 346
- DPNH diaphorase activity in exfoliated cancerous and noncancerous cells in man, a cytochemical study of, 320
- Dysplasia of the cervix, carcinoma and, comparison of rates for new and returning populations, 357
- E**
- Endocrine stimulation of *in vitro* endometrium, the, 245
- Endometrial cells in premenopausal women, normal exfoliation of, 211
- Enema, the silicone-foam: a source for exfoliative cytological specimens, 79
- Erythroplasia of the vulva, cytologic patterns in, 331
- Exfoliation related to cytodiagnosis, aspects of cell formation and, 362
- F**
- Fetal impairment, cytolysis in post maturity and its relation to, 268
- First Brazilian Congress of Cytology, 90
- Frozen sections, adjuvant cytology to, 164
- G**
- Goldblatt cytology award, 270
- H**
- Hamster cheek pouch, exfoliative cytology in an experimentally induced carcinoma of the, 262
- Herpes simplex virus in a case showing cytological features of viral vaginitis, identification of, 295
- Histochemical methods in normal bone marrow, fluorescence microscopy and other, 66
- Human abortions, spontaneous, culture of tissues from (preliminary work for chromosome analysis), 300
- Hyaluronidase on sputum for the cytological diagnosis of lung cancer, mucolytic action of, 59
- I**
- Improved tussilator (cough machine), tracheo-bronchial cytology utilizing an, 174
- Intraoral exfoliative cytology technics, graphic comparison of, 107

L

- Lung cancer, curable, sputum cytology in the diagnosis of, 85
 Lung cancer, mucolytic action of hyaluronidase on sputum for the cytological diagnosis of, 59
 Lymphocytes, pools of, significance in pulmonary secretions, 168

M

- Memoir: Le Professeur Paul Funck Brentano, 77
 Memoir, Paul Franklin Fletcher, 274
 Millipore filter technic in urinary cytology, a comparison of a simple centrifuge method and the, 199

N

- Normal bone marrow, fluorescence microscopy and other histochemical methods in, 66

O

- Oral cytology, the clinical value of, 337
 Oral cytology, veterans administration cooperative study of, 180
 Ovarian cancer, the cytologic detection of, 191

P

- Papanicolaou, George N. (1883 - 1962), 143
 Parabasal cells in the vaginal smear in prolonged pregnancy, the significance of, 131
 Peripheral blood, cancer cells in, 269
 Peripheral blood in 100 cases of mammary carcinoma and 100 controls, atypical cells in, 91
 Peritoneal mesothelium of the rat to irritants, reaction of the, 252
 Polymorphonuclear neutrophil leukocyte of domestic animals, accessory nuclear lobule on the, 346
 Pregnancy, supravital colpcytology during the first trimester of, 228
 Pregnant women, the vaginal smear in. A study in Karachi, 287

- Premenopausal women, normal exfoliation of endometrial cells in, 211
 Prenatal patients in a municipal hospital, cytology screening of, 224
 Pulmonary tumors in C57 BL mice using strings impregnated with 20-Methylcholanthrene, induction of, 126

R

- Relationship between trichomonas vaginalis and dysplasia in the uterine cervix, an experimental study of the, 187

S

- Sarcoma 37 cells to three chemotherapeutic agents, response of, 118
 Schools of technology in the U. S., 133
 Sex chromatin body, the origin of the, 147
 Sex chromatin, chromosomal errors and human development, 146
 Sex chromosome aberration in man, sex determination, sex differentiation and, 148
 Sputum, efficiency of concentrating malignant cells in, 372
 Syndromes, autosomal trisomy, 149
 Synthetic progestogens, effects of the vaginal epithelium of, 377
 Syrian hamster, induction of cervicovaginal cancer in the, 72

T

- Trichomonas vaginalis cervicitis, the vascular pattern of, 292

U

- Urine cytology, some pathologic conditions affecting, 196

V

- Vaginal epithelium, interference microscopic dry weight determinations on cells from the, 45
 Vaginal recurrences of invasive intraepithelial carcinoma of the uterine cervix, four cases of, 277
